GRIFFITH UNIVERSITY

Higher Degree by Research Industry Project Plan

Griffith University encourages the development of collaborative research projects with external organisations. Higher Degree by Research applicants who develop a research project that involves an external partner have the opportunity to conduct practice-based research gaining important transferrable skills and real-world experience.

This research project plan should be completed by the HDR applicant/candidate in consultation with their Griffith supervisor and External Organisation. This document is separate to the research proposal also required as part of the HDR application.

The applicant must attach the plan to the online HDR application for admission for assessment. HDR candidates already enrolled in their program must attach the plan to their candidature milestone or email directly to PhDpartnerships@griffith.edu.au

External Organisations, also known as industry partners, are research end-user entities (Australian or international) such as private enterprises, start-ups, businesses, not-for-profit organisations, charities, government entities (local. state and federal) and community groups.

١.	Applicant Details	Name:	
		Email:	Phone:
2.	Applicant Partnership Type	 Selected as the preferred applicant for a Griff scholarship (proceed to Q 6) Applicant led collaborative research project p in with external organisation funded sch in without external organisation funded Applicant employed with external partner (presented or content o	proposal (proceed to Q 3): olarship scholarship
3.	Applicant Led Partnerships	a. Please provide details on the relation	nship with the External Organisation:
		How long have you known the organisation?:	
		Does the Organisation have research experience, an your proposed supervisor or Griffith University previc	
		How committed is the External Organisation to the prelationship:	project's success and developing the

	b. Please provide employmen	t details (if applicable)
	Tick the boxes that apply:	
	 I am currently employed by the External Organisation Full time or Part time My employment is directly related to my research, and I will fully or partially undertake my research project during employment hours I will undertake my research project outside of my employment hours 	
	Note: Full-time enrolment for research students requires a commitment of the equivalent of a standard five-day work week (i.e., 9am to 5pm, Monday to Friday, 48 weeks a year), with the actual pattern of study to be negotiated with your supervisory team. If your employment is directly related to your research and you will progress your project as part of your employment, this will count towards your study commitment.	
	Provide details on the plan to undertake your rese	earch program with your employer:
